

SpencoMedics™

PROFESSIONAL PREFORMED ORTHOTIC INSOLES

SPORT

Low-friction top cloth helps prevent blisters. *Silpure* Antimicrobial reduces odor.

Deep Heel Cupping helps to stabilize the rearfoot.

TOTALSUPPORT® Footbed provides cushioning for the ultimate foot comfort. It's "The Shape That Feels Great®"

3-POD™ Modulation System
Multi-density pods piston through the flexible cradle to modulate ground forces. Stiffer medial pod counteracts overpronation, softer lateral pod provides shock attenuation at heel strike.

Additional Pods for Customization
Varying density heel and mid-foot pods allow for in-office prescription modifications. Visit spenco.com/medics for additional information

FOR PROFESSIONAL USE

Instantly customizable orthotics help relieve pain while your patients wait for custom orthotics. A cost-effective option for you and your patient.

Spenco Medics™ Adjustable Replacement Insoles feature Spenco's proprietary TOTALSUPPORT® Technology with the added benefit of interchangeable heel and mid-foot pods for a complete, customizable solution for your patients.
