Best combination of shock absorption and energy-return

Target Consumer:
Athletes looking for cushioning who participate in a variety of physical activities. Effective for use in all team sport competition and training. Consumers seeking additional cushioning in both the forefoot and heel.

Recommended For:
Increased shock absorption and heel strike protection. Reduced friction to help prevent blisters. Higher energy return for improved athletic performance.

Best For Use In:
Athletic, tennis, basketball and training shoes with removable insoles.

Components*:
PU, Spenco® Material, Fabric. Thickness at Heel: 13.21mm (1/2in), Thickness at Forefoot: 5.50mm (1/4in)

Instructions:
Remove the original insole from the shoe (some brands of shoes glue the insole to the shoe, but careful removal will not damage the shoe). Use the original insole as a guide to trace and trim the Spenco® PolySorb® Cross Trainer Replacement Insole.

Care:
Hand wash in warm water. Air dry.
